

Is Ketamine-Assisted Psychotherapy a Fit for *Your Practice?*

An hour with Clinical Psychologist, Dawn DeCunha on what the work actually involves, and the essentials of what it takes to offer it. Ample time is reserved for your questions.

FREE · ONE HOUR · LIVE ONLINE, EASTERN TIME · FOUR DATES

SESSION ONE	SESSION TWO	SESSION THREE	SESSION FOUR
Thursday 17 September	Thursday 1 October	Thursday 15 October	Thursday 5 November
5:00 PM ET	12:00 PM ET	5:00 PM ET	12:00 PM ET

Each session covers the same ground. Come to whichever one suits you.

What we'll cover

- How ketamine-assisted psychotherapy works ~ the science and mechanisms of change
- How to measure progress across a course of treatment
- Basics of providing KAP in your practice
- Identify which patients are candidates, and which are not
- What the three-day intensive covers, and what comes after it
- Scope, regulation, and your College or Board expectations
- Your questions ~ ample time is reserved for your curiosity

Who this is for

Regulated clinicians already practicing psychotherapy who are considering adding ketamine-assisted psychotherapy to their work ~ particularly those with patients who haven't responded to what they currently have to offer.

Prescribing remains with qualified medical prescribers.

This training addresses the psychological component of preparing and supporting vulnerable patients.

You don't need to have decided anything. This session exists to help you work that out.

THE TRAINING THIS PREVEWS

Ketamine-Assisted Psychotherapy Clinical Intensive

DATES	FORMAT	COHORT	ADMISSION	CE CREDITS
